DETAILED ACTION

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

This communication is an Examiner's reasons for allowance in response to the amendment filed 06/04/2007, assigned serial 10/715698 and titled: "Methods and systems for providing a field of view, such as a rearward field of view, for use with motorcycles and other vehicles, such as bicycles, cars, trucks, watercraft, aircraft, and snowmobiles."

Applicant's arguments, see Applicant's Amendment, filed 06/04/2007, with respect to claims 2-3 and 6 have been fully considered and are persuasive. The rejection under 35 USC 102 of claims 2-3, and 6 has been withdrawn. Applicants submit "that this and other limitations presented in the claims overcome certain difficulties that are unique to motorcycles and require knowledge of motorcycle systems and operation to solve."

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After carefully reviewing the application and the additional search of all areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

As per claims 2,3, and 6, the prior art of record does not disclose a system for use with a motorcycle comprising: a mountable camera, an angle adjusting component for changing the angle of the camera, a display screen above a gas tank of the

motorcycle, at least a suction thread post, and an interlocking fabric for mounting, and a link between the turn signals or the transmission and the angle adjusting component for changing the angle of the camera of the motorcycle.

Claims 2-3, 6, 8-26 are allowable over the prior art of record.
